## For us, **business is** all about connections.

BrokerBid.com can help your producers beat the competition! And IBrokerBid.com can do it at no cost to your company.

BrokerBid.com is unlike any website or software program in the world and is designed specifically for the commercial insurance market. Our business model is simple, we help connect brokers to the correct underwriters that can write their business and we help underwriters see more submissions that match a carrier's appetite, all through a single system that requires no integration.

Insurance carriers and agencies are looking for ways to increase the number of qualified leads and written business. BrokerBid.com is the insurance catalyst for which the commercial insurance industry has been waiting.

We do not charge a setup fee and there is no cost per user fee. There is no additional software to purchase or integrate, and most importantly there is no risk to carriers or producers.

Think about it, being able to get your submitted risks directly to the correct underwriters, at all of your appointed carriers with a single click! Just consider the savings of time and cost to your marketing department.

Account setup is free and takes less than 5 minutes.

BrokerBid.com can connect commercial insurance agencies and carriers in the following types of commercial insurance:

Full Commercial Package	Commercial Auto	Directors & Officers
Employment Practices Liability	Workers Compensation	Property Coverage
General Liability	Crime	Inland Marine
Umbrella	Marine Cargo	Errors & Omissions

Please attend a BrokerBid Agency Webinar to see just how easy BrokerBid.com is to use.

Date: Every Monday, Tuesday, Wednesday, Thursday, Friday  
Time: 8:30 am PST

The webinar takes approximately 30 minutes.
